

# Exhibit D

## Implementation Agreement for Integrated Dual Polarization Micro-Intradyne Coherent Receivers

IA # OIF-DPC-MRX-01.0

*March 31<sup>st</sup>, 2015*

Implementation Agreement created and approved  
by the Optical Internetworking Forum  
[www.oiforum.com](http://www.oiforum.com)

**Plaintiff's Exhibit  
No. 055**

Case No. 2:16-cv-01301-JRG

The OIF is an international non-profit organization with over 90 member companies, including the world's leading carriers and vendors. Being an industry group uniting representatives of the data and optical worlds, OIF's purpose is to accelerate the deployment of interoperable, cost-effective and robust optical internetworks and their associated technologies. Optical internetworks are data networks composed of routers and data switches interconnected by optical networking elements.

With the goal of promoting worldwide compatibility of optical internetworking products, the OIF actively supports and extends the work of national and international standards bodies. Working relationships or formal liaisons have been established with IEEE 802.1, IEEE 802.3ba, IETF, IP-MPLS Forum, IPv6 Forum, ITU-T SG13, ITU-T SG15, MEF, ATIS-OPTXS, ATIS-TMOC, TMF and the XFP MSA Group.

**ABSTRACT:** Implementation Agreement for a micro intradyne coherent receiver (ICR) suitable for inclusion in a coherent CFP2 module.

**Notice:** This Technical Document has been created by the Optical Internetworking Forum (OIF). **This document is offered to the OIF Membership solely as a basis for agreement and is not a binding proposal on the companies listed as resources above.** The OIF reserves the rights to at any time to add, amend, or withdraw statements contained herein. Nothing in this document is in any way binding on the OIF or any of its members.

The user's attention is called to the possibility that implementation of the OIF implementation agreement contained herein may require the use of inventions covered by the patent rights held by third parties. By publication of this OIF implementation agreement, the OIF makes no representation or warranty whatsoever, whether expressed or implied, that implementation of the specification will not infringe any third party rights, nor does the OIF make any representation or warranty whatsoever, whether expressed or implied, with respect to any claim that has been or may be asserted by any third party, the validity of any patent rights related to any such claim, or the extent to which a license to use any such rights may or may not be available or the terms hereof.
